Whats for dinner tonight? Its a question most of us dread. Because we truly want to give our family and friends something that they enjoy, that is relatively quick, easy and budget friendly as well. More often than not...theres a good chance your answer will be chicken since it is the number one meat consumed by Americans. The conundrum comes because we really desire to change up our chicken recipe repertoire... so that its not the same ole same ole. We want to have a variety of chicken meals to serve our family and friends. If you are like me, youve probably purchased many cookbooks over the years, trying to find new chicken recipe ideas to feed your family. Usually though (to your dismay), you find that you end up only being able to (or even wanting to) use 3-4 of the chicken recipes in the whole cookbook. Reason...because most chicken recipe cookbooks are full of fancy, foo-foo chicken recipes that very few REAL people actually enjoy and/or want to go thru the expense and hassle of cooking. So after years of using my family and friends as my guinea pigs, and trying out hundreds of different chicken recipes, Ive finally put together some of our favorite, family friendly, relatively inexpensive, delicious chicken recipes - that you can be proud to serve to your family and friends! This is how the No Foo-Foo Series of Cookbooks was hatched. Delicious Chicken Recipes in Volume II include:-Chicken Salad Recipes-Chicken Sandwich Recipes-Chicken Burger Recipes-Chicken Pot Pie Recipes-Chicken Alfredo Recipes-Mexican Chicken Recipes-Chicken Casserole Recipes-Chicken Dump Recipes-And Many More Yummy Quick and Easy Chicken Recipes 31 Easy, Delicious Chicken Recipes...One for every night of the month. But thats not all...Ive also included several BONUS recipes that I know you are going to love. I hope you,
