

Cash In On Earnings!: Options Trading - HUGE Profits Trading Just 8 Weeks A Year! (Make A Fortune Trading Stocks And Options Book 6)

I learned this amazing fact early in my trading career (nearly 12 years ago). I learned there are traders on Wall Street whose only specialty is trading earnings announcements AND THEY MAKE HUNDREDS OF THOUSANDS OF DOLLARS A YEAR DOING IT! I decided back then I wanted to make that kind of money too! I started out the way most traders do by buying a professional trading system. In fact I bought 3!!! One system focused on pre-announcements and earnings revisions. The idea was the stock of companies that have positive pre-announcements or upward earnings revisions should take off after earnings. The problem with this system was half the time THE COMPANY'S STOCK WENT DOWN AFTER EBOOKING GREAT EARNINGS! Another system I bought suggested trading straddles to make money if the stock moves up or down. The problem with this system was THE STOCK RARELY MOVED FAR ENOUGH TO MAKE ANY MONEY BECAUSE THE STRADDLES COST TOO MUCH. The third system focused on finding short squeeze situations. I learned the hard way TRADERS SELL A STOCK SHORT FOR A REASON! I quickly realized I had to develop my own system if I wanted to make really big money. So I went to work and began intensely studying advanced option strategies. I read over 50 books, countless articles, and back-tested scores of strategies. It took me almost 2 years, but I finally discovered what the Wall Street insiders were doing. I discovered cashing in on earnings announcements is NOT about making predictions on stock price direction; it is about using options very creatively. I learned the Wall Street insiders were using a very unique options strategy to make HUGE profits overnight! Once I discovered this strategy I had the key to trading earnings announcements!

So how can you benefit by what I have learned? I have put all the details about this amazing strategy into a complete ebook called Cash In On Earnings!
