

We Are All Addicts: The Epidemic of Hidden Addictions and 7 Steps of Recovery and Creating the Anti-Addiction Life

In this concisely written book, Mental Health Therapist and Addiction Counselor Ken Donaldson examines the current epidemic of hidden addictions and offers some simple and highly effective methods of recovery from addiction, as well as creating an anti-addiction lifestyle proactively. We Are All Addicts looks closely at the four primary areas of addiction: Substance, activity, people and emotions. Although substance abuse/drug dependence, alcoholism and tobacco use are often viewed as primary addictive activities, Donaldson goes much deeper and provides an in-depth overview of sexual addiction, gambling addiction, food addiction, codependency/love addiction, internet addiction, spending/shopping addiction and emotional addiction. There is an examination of the underlying motivating forces that enable addictive behavior, as well as some of the primary social and cultural addictive reinforcers. The basics of addiction and the pain-pleasure motivators are closely examined. Here is a sample of some of the statistics Donaldson reveals that accompany these addictive behaviors: Alcoholism and alcohol abuse are the third leading cause of the preventable deaths in the United States. From 1960 to 2006, the prevalence of obesity increased from 13.4% to 35.1% in U.S. adults age 20 to 74. More than 17% of adults over 60, wittingly or not, abuse prescription drugs. 15 million people display some sign of gambling addiction. 25 million Americans visit cyber-sex sites between 1-10 hours per week. Donaldson also shares his proactive 7 Step Anti-Addiction model that also serves as powerful ally in the recovery from addiction. Information about 12 Step Programs is also included. Overall We Are All Addicts: The Epidemic of Hidden Addictions and 7 Steps of Recovery and Creating the Anti-Addiction Life provides the reader with all the necessary

information about addiction, addictive behaviors, causes of addiction and recovery from addiction.
