

Advances in Fisheries Economics

A true landmark publication, *Advances in Fisheries Economics* brings together many of the world's leading fisheries economists to authoritatively cover the many issues facing the field of fisheries economics and management today. Compiled in honour of the work and achievements of Professor Gordon Munro of the University of British Columbia, Canada, this exceptional volume of research serves as both a valuable reference tool and fitting tribute to a man whose work has shaped the discipline. Divided into four sections, the text includes coverage of: Property Rights and Fisheries Management Capital Theory and Natural Resources Game Theory and International Fisheries Applied Fisheries Economics and Management The book is an important addition to the resources of all fisheries economists, managers, scientists and fish biologists. Libraries in universities and research establishments where these subjects are studied and taught should have copies on their shelves. About the Editors Dr. Trond Bjørndal is Professor of Economics, Centre for Fisheries Economics, Institute for Research in Economics and Business Administration, Bergen, Norway and Director, CEMARE, University of Portsmouth, England. Dr. Daniel V. Gordon is Professor of Economics, University of Calgary, Canada and Distinguished Research Fellow, Centre for Fisheries Economics, Institute for Research in Economics and Business Administration, Bergen, Norway Dr. Ragnar Arnason is Professor of Economics and the Chairman of the Institute of Economic Studies, University of Iceland. Dr. U. Rashid Sumaila is Director of the Fisheries Economics Research Unit, Fisheries Centre, University of British Columbia.

From Beverton and Holt simulation and modelling of fished stocks, fisheries economics, assessing reproductive
