

Albrechts Foundation Concepts (The Albrecht Papers)

Nature gave up her rare secrets to Dr. Albrecht simply because he was a curious farm boy who liked logic and adventure. Through his extensive experiments with growing plants, soils and their effect on animals, he showed that a declining soil fertility, due to a lack of organic material, major elements, and trace minerals - or a marked imbalance in these nutrients - was responsible for poor crops and in turn for pathological conditions in animals fed deficient feeds from soils.

Albrechts Foundation Concepts, Vol. I from Acres USA 1 - Foundation Concepts (The Albrecht Papers): ISBN given here is for later printing.
