

At Home with Beatrix Potter: The Creator of Peter Rabbit

The creator of Peter Rabbit, Samuel Whiskers, and Jemima Puddleduck, Beatrix Potter (1866-1942) is one of the best-loved children's book authors of all time. Yet few in America are aware of the role she played in protecting some of England's most beautiful landscapes and in designing romantic interiors and a lovely garden at Hill Top, her beloved Lake District farmhouse. Taking the reader through her picturesque house and the breathtaking scenery around it that inspired many of her famous stories, this enchanting book is the first to look at the intimate connection between the English countryside and Potters work. Her own exquisite illustrations appear alongside specially commissioned full-color photographs of their real-life counterparts, revealing a home filled with treasured old furniture and beautiful objects and celebrating an artist-storyteller whose legacy as a conservationist at last receives the attention it merits. 150 illustrations in full color, 10 x 10

SUSAN DENYER is the National Trusts Historic Buildings representative in the north of England. She was closely involved in the restoration of the Hill Top interior and helped to set up the Beatrix Potter Gallery in Hawkshead.
