

Autobiography of an UNWANTED Child

You have some real gifts ~ for writing, for inspiring, and for surviving. Definitely something to be proud of! Sara M. So powerful and tragic. A story to be shared in hopes that it can help others. Kevin C. It has been my lifelong passion to write life stories. I had no idea the experience I would gain through my own life. I am grateful to share stories that are truthful and imperfect. Autobiography of an UNWANTED Child is such a story about a girl who learned that the family given to her at birth was not safe for her and they did not choose to offer her unconditional love. The subject of this book is concerned that her siblings will cause her harm or follow through with threats that would have fatal results. However, she desires to share expansions of her story that are not contained in this writing. Privacy rights will be respected. Upcoming writings will include other survivors who want to share stories of bravery and courage. Identities will be confidential unless they choose otherwise. Thank you for being part of the solution! Skye DeMaria
