

How to Get Credit After Filing Bankruptcy: The Complete Guide to Getting and Keeping Your Credit Under Control

According to the United States Bankruptcy Courts, the number of bankruptcies filed each year is on the rise. People file bankruptcy for a variety of reasons, such as preventing foreclosure on their homes, preventing repossession of property, loss of employment, or reducing or eliminating debts. The most common types of bankruptcy for which individuals file are Chapter 7 and Chapter 13. Chapter 7 involves the surrender of property to pay debts, while a Chapter 13 bankruptcy allows for the retention of property but requires payments over the next three to five years. A person who finds himself or herself in this undesirable situation may wonder how they are ever going to repair their credit.
