

Good Grief 2: Exploring Feelings, Loss and Death with Over Elevens and Adults: 2nd Edition (v. 2)

With twenty educators contributing ideas piloted with children of different abilities and backgrounds in their care, Good Grief has been designed to explore and demystify the experience of loss in different contexts within the framework of the National Curriculum. This second edition has been updated and revised, to include a new chapter on the effects of disasters on children. Suitable for all professionals, carers and parents, both books are activity based. Good Grief 1 facilitates the use of childrens own experiences and encouraging improvisation and extension. Primarily designed for mixed ability secondary and adult education, Good Grief 2 will also be invaluable for many other statutory, professional and community organisations.
