

## Billions Rising: Empowering Self-Reliance Around the Globe

Billions Rising is a real-world documentation of the old proverb which tells us if you give a man a fish, you feed him for a day; but if you teach him how to fish, you feed him for a lifetime. Across the globe, there are well-meaning organizations giving handouts to people in need. But the more sustainable solution comes from the projects, non-profits, and companies who strive to give people a hand up rather than a handout. While mainstream media buries these inspiring stories, Billions Rising shines the spotlight into the darkness and boldly proclaims what the world tries to ignore: a foundation for self-reliance is the best gift that anybody can receive.
