

Jesus agrees with Atheists...well, at least on some things.

Why do people usually get angry when talking about religion? In most cases its the Im right and youre wrong attitude that makes people go on the defensive when they discuss religions. In this book you will learn how to avoid getting into heated discussions since you will actually be agreeing with atheists on their beliefs while at the same time affirming the truths found in the Bible. Discover how the arguments that many atheists use actually concur with the Bible. This book is a great tool to learn how to defend the Christian faith in a way that will not put atheists on the defensive. The purpose of this book is to encourage fellow Christians to persevere in the faith in the midst of a faithless generation and to teach them another method of defending their beliefs. This book was also written with the purpose of reaching the atheists that are open minded enough to hear the opposing side. The desire is to spark faith into the atheists heart and encourage them to seek God on their own, so that they too will obtain the eternal life promised to those who believed, since the foundation of creation.
