

## Cycle of Lies: The Fall of Lance Armstrong

The definitive account of Lance Armstrongs spectacular rise and fall. In June 2013, when Lance Armstrong fled his palatial home in Texas, downsizing in the face of multimillion-dollar lawsuits, Juliet Macur was there talking to his girlfriend and children and listening to Armstrongs version of the truth. She was one of the few media members aside from Oprah Winfrey to be granted extended one-on-one access to the most famous pariah in sports. At the center of Cycle of Lies is Armstrong himself, revealed through face-to-face interviews. But this unfolding narrative is given depth and breadth by the firsthand accounts of more than one hundred witnesses, including family members whom Armstrong had long since turned his back on: the adoptive father who gave him the Armstrong name, a grandmother, an aunt. Perhaps most damning of all is the taped testimony of the late J.T. Neal, the most influential of Armstrongs many father figures, recorded in the final years of Neals life as he lost his battle with cancer just as Armstrong gained fame for surviving the disease. In the end, it was Armstrongs former friends, those who had once occupied the precious space of his inner circle, who betrayed him. They were the ones who dealt Armstrong his fatal blow by breaking the code of silence that shielded the public from the grim truth about the sport of cycling and the grim truth about its golden boy, Armstrong. Threading together the vivid and disparate voices of those with intimate knowledge of the private and public Armstrong, Macur weaves a comprehensive and unforgettably rich tapestry of one mans astonishing rise to global fame and fortune and his devastating fall from grace.
