

# CalcuLadder 1: Basic Addition and Subtraction (Classic Edition) (A Learning Vitamins Unit)

CalcuLadder 1 includes drill Levels 1 - 16, which cover basic addition and subtraction. Your student is thoroughly drilled on all addition and subtraction facts with answers less than or equal to 20. Drills 1-14 have a suggested time goal of 2 minutes. The drill Levels are carefully sequenced to add new facts while reviewing previous ones. The final two Levels provide a comprehensive review of all facts, and have a suggested time goal of 3 minutes. The purpose is to get basic addition and subtraction facts down cold, so that the student knows the answers instantly. Use CalcuLadder 1 in Grades 1, 2, 3, or higher for a really solid foundation or to fill gaps in basic math mastery. Learning Vitamins are some of the most effective, easy-to-use learning aids you're likely to find for math, penmanship, and alphabetizing skills. The most important thing is to use them every day. Here's the basic idea: Have your student repeat a given drill once each day until he is able to complete it correctly within that drill's suggested time goal. Grading the drills is a snap with the unique QuicKeys whose answers line up underneath the student's answers! When your student passes a given drill, fill in his Achievement Record and promote your student to the next drill! Learning Vitamins: help kids get facts down cold and skills down pat - make weak areas stand out, helping you teach where needed most - change slow, awkward struggle into fast, confident skill - build character thru a relevant Bible text on each page - a supplemental program of quick, potent, one-page, timed drills - fully reproducible - buy once, then use with all your students for daily use, to make skills really click in just minutes a day - great for tutorial, full classroom, small group, or self-study - perfect for remedial, review, summer brush-up, normal, or accelerated/gifted use
