

## Campus Strategies for Libraries and Electronic Information (Educom Strategies Series on Information Technology)

A look at how ten American colleges and Universities bridged the gap between computing, administrative, and library organisations. Detailed case studies from ten American colleges and universities will prepare you to make better plans and decisions for an electronic library, integrated information management system, or unified information resource. You'll find models and guidelines covering reference services, latest philosophies and strategies, management and organization issues, delivery mechanisms, and more.
