

Computerized Accounting with Sage 50 2016

Paradigm designed this title so students can practice all of the basic accounting activities supported in the 2016 version of the Sage 50(R) software. Detailed step-by-step explanations followed by hands-on exercises provide students ample practice opportunities to ensure mastery. After completing Computerized Accounting with Sage 50(R) 2016, students will understand how to setup a new company, build a chart of accounts, enter beginning balances in the general ledger, process transactions, prepare financial statements, reconcile accounts for a service business, and process payroll. While using Computerized Accounting with Sage 50(R) 2016, students will:

- *Learn software procedures through step-by-step instructions while examining screen captures.
- *Gain insight into processes through hints and identified key phrases, which are included in the textbook margins.
- *Assess their comprehension with checkpoint features that appear at the end of each major chapter section.
- *Test their knowledge of learning objectives through practice exercises and two levels of comprehensive case problems.
- *Sharpen their critical-thinking skills while completing end-of-chapter writing and decision-making problems that relate to learning objectives.
- *Learn the importance of soft skills in today's workplace through Cooperative Learning team activities.
