

Concept Cartoons in Science Education

Created by Brenda Keogh and Stuart Naylor, Concept Cartoons have been thoroughly researched in classrooms around the world. Simple cartoon-style drawings present learners with their own misconceptions and generate discussion and argument. They are remarkably easy to use in the classroom as a part of normal teaching. The book contains 120 Concept Cartoons covering the main areas of science. Background text, written in pupil-friendly language, is available for each Concept Cartoon. This suggests possible follow up activities and explains the science behind the different alternatives and possible answers. The book contains photocopiable Concept Cartoons.
