

## Confessions of a Love Addict

This book will penetrate the souls of anyone that has suffered from behind the closed doors of life. Allow this book to be a guide for those that have gotten off track and lost their way along lifes paths. Contrary overtones are real and they sometimes devastate the unsuspecting mind. Realize our worth should never be summed up by assuming the identity that another lies on us. If we continue to allow this brainwashing, we would never know our true worth. Live life for yourself and find your true purpose in this vast, beautiful world. Take this journey with me in this short autobiography. As you journey with me, find the realization within that you can no longer deny who you are nor who you were meant to be. I lived the first portion of my life trying to live up to someone elses expectations. I was misled, misused and abused.....however, no more!
