

Creating And Managing A Technology Economy

The International Association for Management of Technology (Iamot) is one of the largest scientific associations dedicated to advance the education, research and application of management of technology. The annual Iamot conference assembles the most prominent scientists and experts in the field. The 17th conference held in 2008 included over 300 papers by experts from various countries. This volume is a collection of the best, high quality papers presented at the conference, covering topics and issues related to the knowledge economy, commercialization of knowledge, green technologies, and sustainable development.
