

Encyclopedia of Armed Forces Football: The Complete History of the Glory Years

Over a period of twenty-five years, the author has researched a vast number of game programs and videos, along with local and service newspapers, some better than other sources, to identify the players and coaches from the three major eras of service football. In doing so, he has also compiled a history of the development of physical education training in the pre-WWI period. Using the game programs to determine the persons seen in the videos and films has been a great help for some games, but with constant changes and redeployments, some players are still unknown. However, there are extensive player and team registers for each of the three eras. The great and little known teams are here: Great Lakes, Mare Island, Iowa Pre-Flight, Second Air Force, Fleet City, Camp Lejeune, Fort Ord, Bainbridge, Quantico, Georgia Pre-Flight, and so many others. The early pioneers of the National Football League (including George Halas, Paddy Driscoll, Jimmy Conzelman and others) were some of the stars of the early era of service football. After WWII and the Korean War many players went on to the professional leagues. Yet there are many men from high school and college teams who played service football and then returned to civilian life or high school or college coaching after the war. Some didnt return - and it is to their memories that this book is dedicated.
