

## Dummy Hubby: Laughable Stupidity

Surely most of us have had someone in our life at one time or another that has done something really stupid or silly without thinking. What if the stupidity happened daily? A wife who kept notes spent at twenty years with a man who often did and said things that made little sense to anyone other than himself. The event, or rather his antics of the day or week, often brought laughter when told to others and he became known as the Dummy Hubby. His doings kept her and others on a constant alert. Laugh along with the antics as you read the true situations the wife had to deal with and be glad it was not you.
