

Recovery Start Kit: A 100-Day Plan for Addiction Recovery

For the last decade, Ballistic has released the Computer Graphics industry must have, digital art annual: EXPOSE. The latest instalment of the Finest Digital Art in the Known Universe brings together a record number of inspiring works from not only the giants of the entertainment industry, but also many rising stars. EXPOSE 10 is the largest EXPOSE to date with 288 pages, and features a record-smashing 548 images by 380 artists. EXPOSE 10 draws artists from every continent on Earth (except Antarctica), making it the most diverse collection of styles and cultural influences, and a true depiction of the worldwide digital art community. Ballistic has also, for the first time, included a commemorative Honor Roll that lists all of the artists that have been featured in all EXPOSE books from one through to ten. EXPOSE 10 - there is nothing else quite like it. EXPOSE 10 showcases the worlds best digital art in 20 categories, including: Comic/Manga; Portrait (Painted & Rendered); Fantasy; Fantasy Femmes; Architecture (Exterior & Interior); Concept Art; Environment; Matte Painting; Science Fiction; Robotic/Cyborg; Warriors & Conflict; Whimsical; Surreal; and Transport. Across all these categories, Ballistic Publishing is uncompromising in its pursuit of quality, and each image that appears in EXPOSE 10 is individually color-corrected to maintain a standard of output that no other art publisher can match. EXPOSE 10 entries were judged into Master and Excellence classes by a judging panel of renowned artists including: Syd Mead (Blade Runner, Tron, Aliens, and 2010), Chris Perna (Epic Games Art Director), Stephan Martiniere (concept artist from id Software), Chris Sloan (award-winning Art Director from National Geographic), and Alex Morris (architectural visualization guru).
