

# Fear of the Unknown: Enlightened Aid-in-Dying

How do doctors and nurses communicate with frightened patients who are dying, address the needs and concerns of the patients, and help the patients arrive at an acceptance of death? This work deals with the relationship that the health care team has with the dying and how well that team is prepared to address the fears of the dying. In addition, the health care team must learn to deal with their own emotions and ignorance concerning death. This work should be of interest to those professions that deal closely with dying people.
