Friendships is a collection of four books. A turtle and squirrel became friends. Their friendship continued over a period of time. Two legumes will always be friends. When one needs someone to talk with, the other comes. Four cousins enjoyed treats their neighbor placed by a tree. Remembering to save something for another day, one cousin, in an act of friendship, saves some of the treats for all. A great great grandchild selects her great great grandmother to be the topic of a school project. Their friendship and love for each other is demonstrated.
