

Frontiers of Environmental Law (Warwick Law)

The increase in environmental legislation and regulation throughout the European Community calls for an intelligent response to planning, policy and practice in this developing area of the law. Brings together the latest data and presents the expert views of leading practitioners and academics, it includes coverage of corporate strategies for dealing with the growing body of environmental legislation; the economic implications; protection of the environment; and ultimately, integrating both the environmental and economic laws throughout the entire European Community.
