

## Money Medical: Healthy Money Management

Money is a major stress trigger for young adults too, especially when we feel like our money situation is out of control. This interactive CD-ROM is designed to help young adults develop the skills and attitudes to take control of their financial life. It teaches youth how to track spending, sort expenses, build a budget, examine their own personal attitudes and beliefs about money and more. Research has found statistically significant improvements in money attitudes and an increase in financial knowledge in youth that complete the program. This CD-ROM includes seven 45-minute animated lessons and a free mentor guide with step by step instructions for all activities. Appropriate For: Youth 12-18
