

Ride the Good Heart Trail

This is not your typical, Eat this and Live Forever, kind of book. I have tried to take regular good home style cooking and made a few healthy changes in some of the ingredients. I have substituted some items with alternative protein sources that are lower in fat and higher in fiber. If you eat it, the Cardiologists say you will lower your cholesterol. I'm not a Cardiologist so I can only cook by my usual Smell Test. If it smells good while you fix it, it probably is good. There are some things in the ingredients that I never thought I would eat, like Tofu, Soy Milk and a few more, but fixed with the other ingredients they are not bad. Like my other cookbooks you should have fun cooking and enjoy what you fix. Like I always say, Use the ingredients, but cook from the HEART!
