

## Hebrew Geometries

Geometry has been used for enlightenment for many, many millennia but it has been several hundred thousand years since these configurations have been made public knowledge. In fact, it has been over 300,000 years since they have been public knowledge and not since then have these diagrams been published and used in the instruction of divine harmonics and principles in either yogic or educational contexts. The author uses his own inner connection between he and higher levels of intelligence or authority to anchor information long lost to us as a civilization. Never before in the history of our civilization have these lessons/diagrams been available, and until now they were kept secret by the powers that be to prevent society from accelerating too fast and to keep control over the masses and their evolutionary potential. It is with great joy that we release these fundamental and profound publications to the public at this time, to celebrate the profound potential within our ever evolving social grist and the profound salient desire today to learn of our true origins and latent identity as solar, creative and possibly divine beings of tremendous intelligence and exceptional dilatation. There are three volumes in the Hebrew Geometries series, and three volumes in the Hebrew Mantras series, of which there is a fourth volume of new mantras due out February 2010 by Rodaian Press. As well, this author is well known for several other noteworthy books along similar lines. Visit [www.JohnHenryMorel.com](http://www.JohnHenryMorel.com) for a complete list of works by this author.
