

Rabbis and Lawyers: The Journey from Torah to Constitution (Legal History & Biography Series)

Renowned legal historian Jerold S. Auerbach examines the special contributions of rabbis and lawyers to American Jewish acculturation. Based on extensive research in U.S. and Israeli archives, his analysis of how lawyers displaced rabbis as community leaders at the beginning of the twentieth century illuminates a decisive moment in history. Author of the landmark study of the legal profession, *Unequal Justice* (1976), Auerbach (Wellesley College) turns to the more specific issue of the development of the lawyer class in the U.S. and its role in changing the ways Jewish Americans assimilated and were perceived by others. This book challenges the comfortable meme that Jewish leaders did all they could to prevent the Holocaust or promote the basics of pro-Jewish causes at home--with so many worried about being assimilated first and devoted second, if at all. It also explores the upper echelons devotion to a President Roosevelt who seemed so openly to relegate their plight to a lesser cause, and did so little to stop the Final Solution. And the reason, Auerbach shows, is that for these leaders--Brandeis, Marshall, Frankfurter, Mack, Proskauer, Frank and others--their religion was ultimately law and their passion was melding Judaism into it. This is not always a comfortable history but it is an important one, an authentic one. For nearly a century, by World War II, the fundamental component of American Jewish identity, articulated by rabbis and lawyers alike, was the inherent compatibility of Judaism with Americanism. During World War II, the inconceivable occurred: what was good for the United States was not good for the Jews; what was urgent for the Jews was a matter of insignificance to the American government and to the president. Once the inconceivable happened, American Jews who had accepted the acculturation bargain were paralyzed. And that transition from

Torah to Constitution began long before its ultimate effects. This is the story of that turn to the legalistic public face of American Judaism.
