

Uncertain Times

Uncertain Times is an offbeat, frenetic ride on the literary wild side with the kooky residents of a small, isolated community. It's a hearty, romping read of mystery, romance, and chick lit with bubba overtones, with every page offering up heaping helpings of Southern humor. Adnijio Benjamin Franklin Jones is a nature photographer inflicted with terminal ADHD. He finds himself stuck in Uncertain, Texas, with only his best friend Bob watching his back. As Adj's conscience, inner voice, or battling psyche, Bob has an opinion of just about everything and voices it incessantly. By turns, Adj and Bob (the world's only stuttering conscience) trade verbal fisticuffs, trade insults like drinking buddies, and give each other psyche hives. Adj, a local mystery woman, and Bob become a menage a trios to duel a cast of characters right out of Southern stereotype casting?and, in the end, all the good people and bad apples in Uncertain get what they individually deserve.
