

How Product Managers Can Grow Their Career: How Product Managers Can Find And Succeed In The Right Job

I happen to think that being a product manager is one of the best jobs out there. I find it to be very satisfying because I'm in charge of the success of a product. If I do the right things, then my product will be selected by a large number of customers and it will solve their problems. If I don't do my job right, my company will probably decide to stop offering my product after a while. Ultimately, my career is in my hands.
