

Proceedings of the Workshop on Effective Field Theories of the Standard Model, Dobogoko, Hungary August 22-26, 1991: Dobogoko, Hungary, August, 22-26, 1991

These discussions of topics related to field theories of the standard model cover such topics as quarks, photo-nucleon processes in chiral perturbation theory, chiral symmetry, the proton matrix element of the axial singlet current and electroweak theory.
