

DarknessBright: Incandescence

This is the first novel of a six book series of High Fantasy. This is both a coming-of-age story and an exploration of mature themes and concepts through adult characters who guide the young men and women who are to come of age. This is highly religious fiction in the Christian tradition of C.S. Lewis and J.R.R Tolkien. Malick and Faruza Karzan find themselves unorthodox in a world of others certainty and hypocrisy, while opposed to the evil forces of Satyr, the Dark God. The Dark Gods avatar, known as the Satyrpan, is portrayed with the qualities of Satan exhibited in John Miltons Paradise Lost. While people struggle to define correct belief and moral actions, a war is being waged by the disparate and conflicting forces of Light against the Dark. These demonic forces of the Dark are opposed using the spiritual gifts of angelic beings from the mysterious Highest Power made manifest in many forms such as fireballs and Light-Lances. Malick and then Faruza are tasked with pursuing a suspected Satyrist youth named Laric Wendelson who supposedly murdered his father. As the pursuit culminates in an epic battle against the Dark Forces and Laric is exonerated and becomes Malicks apprentice, two new quests are born. One quest is for the identity of the Satyrpan, and the other, for the lost Scroll of Jobus, which will answer many questions of faith for the nation of Lorasias. These quests offer salvation for a nation besieged with inner turmoil while threatened by the exterior forces of the Abyss and foreign countries. Enemies are everywhere. Friends are suspect. Rich in religious, philosophical, and psychological content, these novels present the struggle against the evil within and without, while struggling to find truth and personal meaning in a world devoid of easy answers. While action-packed and full of political and social intrigue, this story is one of finding faith despite confusion and

doubt. With a plethora of characters depicted in all their individuality and diversity, the struggle for hope, faith, and love is maintained as a constant. What we know from psychotherapy and particularly Acceptance and Commitment Therapy, with Hegelian and other theological thoughts, the offer is made of ideals as keys to the many mysteries of life and faith, in all their greatness and complexity. I have a B.A. in psychology and performed social work until my current efforts to gain a degree in Creative Writing. This is the story I want to tell. Please allow me to do so to a wide-ranging audience. Thank you. The title Incandescence fits the content of the book by reflecting the heroic nature of the characters who serve the Light of Good as True Night, a decade with the sun eclipsed, approaches. Further, the ice ring of the planet obscuring the sun is known as the Eye of God, and the last line of the novel is: The Eye of God was Incandescent.
