

My DAUGHTER, My FRIEND: My Mother, FOREVER My Friend

Why is it that most daughters, most especially teenagers don't get along with their mothers? A lot of mothers lose their daughters in their teenage years and never able to regain the trust of their daughters after then. As a result, we have dysfunctional young women who go through life lost and not able to maximize their God given potentials as well as not being able to discover themselves until much later in life after a series of preventable accidents. This book provides a clear insight into why daughters seemingly always have PROBLEMS with their mothers and how this problem can easily be solved. It also provides a clear plan and advise on how mothers can develop a closer relationship with their daughters.
