46 easy to make healthy raw vegan and vegan soul food recipes. Full color photo of each recipe. Making the transition to vegan or raw is hard. I know I've been there and I have heard many stories from our patients and students of failed past attempts to change their diet. When I started working with Dr. Opare helping patients transition to eating whole foods plant-based foods I knew I had to create just the right recipes. Recipes that taste great so you feel good about what you are eating. Simple and fast recipes so your busy schedule won't have you resorting to eating something boring or unhealthy at the end of a frazzled day. Desserts that satisfy so that you don't feel deprived and depressed about what you can't eat anymore. Recipes that satisfy your non-vegan friends and family as well. Recipes that teach the basics of raw/living/whole foods plant-based preparation. These recipes have been used by many of our patients and students who are making significant improvements in their health and establishing a healthy lifestyle. Most of the recipes are fully raw. A few are partially raw and a few are cooked vegan. (Not all recipes included in this book are suitable for aggressive healing of serious health conditions.)
