

Lessons from the Podium: Public Speaking as a Leadership Art

Powerful public speakers often seem magical. They have an incredible ability to impress their audience and convey leadership ability every time they speak. In *Lessons from the Podium*, public speaking expert Steven D. Cohen lifts the curtain on the techniques that powerful public speakers use to design and deliver speeches that captivate their audiences. Steven takes readers on a personal journey of discovery that makes them think about their default public speaking behaviors and challenges them to improve their public speaking skills. Steven doesn't simply repackage old ideas; he introduces readers to a unique set of insights and techniques that they can use right away to become more effective public speakers. While most public speaking books discuss preparation fundamentals and basic speaking techniques, *Lessons from the Podium* explores an exciting array of advanced speech construction and delivery concepts and illustrates how these concepts are used in practice. It is a must-read for students and professionals alike who want to speak powerfully from the podium and motivate their audience members to act.
