The AR-15 is one of the most versatile guns ever invented, making it the ideal general-purpose rifle - easily configured for home and community defense, disaster survival, small- and big-game hunting, varmint shooting, pest control and subsistence hunting. Its also a great gun for target shooting, competition and training, plinking and just plain fun. Its an easy gun to handle and shoot, perfect for less-experienced women and children, with advanced capabilities to satisfy the most expert rifleman. Unless you have a whole house full of guns, each designed specifically to fill one of the many specialized roles an AR-15 can cover on its own, you really cant get along without one.
