

London 2012 Olympics - Regenerating the Stratford Site

This book accompanies the Building the Stratford Venues book, but instead concentrates on covering how the main Stratford site for the 2012 Olympics has been regenerated. Until early in this century, the site was mainly light industrial with extensive railway yards, and was bleak and unattractive. Now it is one of the leading general sports sites in the world, and has a wonderful new urban park with an amazing range of plants and supports many wildlife species. The Chapters cover -History of the Stratford Site Archeological Findings Initial Physical State of the Stratford Site Planning for the Olympics at Stratford Design of Development for the Olympics Milestones Achieved prior to Beijing 2008 Importance of Sustainability Principles Clearing and Cleaning of the Olympics Site Developing the General Infrastructure Building the Olympics Venues Summary
