

Managing Your Finances after Retirement: 1999/2001

Devising a budget plan for your retirement is not a simple matter. This booklet outlines the basic principles underlying a realistic budget for retirement; providing practical answers to vital questions such as How much capital do you need to retire at a given age? and What will be the impact of the latest budget and tax changes on your investments and pension income?. Detailed financial plans for ten income categories ranging from R15 000 to R500 000 p.a. make this booklet useful to South Africans across all income classes, while the calculations - based on 1999 prices - make realistic planning possible.
