

Millennium Stocks

Based on the latest research in the fields of management and investing, Millennium Stocks helps you build a stock portfolio that can exceed the return of most mutual funds, adjusted for risk. It presents a formula - developed by the author - that assists you in choosing great companies with a solid future. The author identifies the key criteria for stock selection and develops a table you can use to build a long-term, diversified portfolio with the desired risk-return profile. He also provides a list of 100 millennium stocks that exemplify the criteria and serve as excellent initial candidates. You will learn to: choose the stocks of powerful companies, calculate the real value of a stock, the real value of technology stocks, build a contrarian portfolio, choose your own risk and reward with a diversified portfolio. Using Millennium Stocks you can match or beat the return of mutual funds and build a better portfolio.
