

## Messages from Old Earth

Messages from Old Earth explains how thousands of years ago the Bible spoke of present day scientific discoveries. The science referenced is the same science you will learn in the colleges and universities of the world. Messages from Old Earth is not a book to read through in one day or night as you would a novel. The stand-alone chapters are written to be consumed one-a-day. As you read and meditate on Messages, new insights will open up to you. When something new is discovered by scientists, be excited and inspired to see Gods revealed wisdom. You will be amazed at how much God put into preparing this Earth, this very Universe, as a perfect scientific laboratory for human habitation. Humans make checkerboards, God makes jigsaw puzzles. Each piece is unique and designed to fit together to display the big picture. Frank Strohschein has spent many years studying the two disciplines that he loves, the Bible and Science. He and Patricia, his wife of 46 years, live in the Dallas/FTW, Texas metroplex along with their three children and four grandchildren. His years of study are condensed into the wisdom written in this book. He has completed courses at seven different colleges and has Bible degrees from two colleges. Frank considers this book to be his magnum opus. Martin Luther King, Jr. had a dream that one day color would no longer separate humans. Franks dream is that Christians will no longer be separated from science.
