

On-the-Fly Guide to Balancing Work & Life

Bill Butterworth will make you laugh -- and learn while you're doing it! In the opening chapter of this powerful audiobook, Bill shares how, while running in a nightmarish 440-yard dash with his rotund body, he learned a great lesson: life is much more like a marathon than a sprint. The attitudes and actions that result in steady success over the long haul are what make for long-term satisfaction and achievement. To experience this for yourself, you need to understand how to deal with life's inevitable challenges: The Hazies: losing sight of long-term goals The Lazies: lacking the self-discipline to bring life back into focus The Crazies: allowing life to run out of control Each of these can be conquered by three clarifying triangles: setting clear priorities, learning the discipline of endurance, and reaching the finish line through skillful pacing. It all adds up to a succinct and inspiring guide to balancing excellence at work with fulfillment in all of life.
