

Choose Stocks Wisely: A Formula That Produced Amazing Returns

In his book, Dr. Paul W. Allen shares his unique method for buying common stocks. The method yielded him a ten year annualized portfolio return of 38.73 percent from adoption of the buying strategy in early 2003, while the S&P yielded a 7.93 percent annualized return across the identical ten year period. An informative, practical, and essential investing tool for beginner and experienced stock investor alike, Allens step-by-step system will show you how to apply his highly successful personal balance sheet buying formula for common stocks. Intended for anyone interested in investing, Allens eye-opening how-to guide puts the emphasis where it needs to be so that the money goes where you want it to: your pocket.
