

New Trap Shooter Primer

The New Trap Shooter Primer fills the information gap during the first years of trap competition. Written primarily for young shooters entering the scholastic trap arena, the New Trap Shooter Primer is great for new coaches, parents, and volunteers who have some basic questions about the sport. Most new shooters and parents who get started in scholastic trap, don't have a shooting background and need the basic vocabulary that people who grew up in the shooting sports take for granted. Whether it's ammo questions, gun and equipment questions, or some basic strategies for singles trap, the New Trap Shooter Primer has the answers.

Table of Contents - Mtcstrap This is only my second post but I'm not new to reloading, just newer to reloading shot shells. I've currently been reloading (per Alliant's data) AA **Primer substitutions. Trap Shooters Forum** I shoot cheddite primers with my reloads and new Rios when shooting.
