

Simply the Best: One Heros Story

Will Padjen, a World War II hero, is on his way to the local high schools play-off football game, a game in which two of his sons are coaching. His journey, intertwined with the play-off game, includes his reflections back on his life, beginning with his experiences as an undersized local high school football player, to his encounters in the Battle of the Bulge, to raising a family that continues to foster his values, and finally, to his passion for the local high school football team.

The classic play-off game serves as the centerpiece to display the passion that Will had for the game of football, for his family, for his community, and for his country.

Will has been somewhat of a local icon, supporting the team for well over forty years while having a brother or son involved in playing or coaching for every year of the forty plus years of the schools existence. Unfortunately, he is suffering from the ravages of lung cancer, and this will be his last football game. This won't deter Will from savoring the exact thing that has brought so much joy to his family, his community, and of course, to him.

Yes, Will is a member of the Greatest Generation, and this is why he, and the men he served with who returned home to continue to make a difference, are simply the best!
