

## Renewables Information: 2007 Edition

Renewables Information brings together in one volume essential statistics on renewables and waste energy sources. Part I of the publication provides a statistical overview of 2005 developments in the markets for renewables and waste in the OECD member countries. It also provides selected renewables indicators for non-OECD countries. Part II provides, in tabular form, a more detailed and comprehensive picture, including 2006 preliminary data, of developments for renewable and waste energy sources for each of the 30 OECD member countries. It encompasses energy indicators, generating capacity, electricity and heat production from renewable and waste sources, as well as production and consumption of renewable and waste products.

Table of Content :

- 1. Principles and Definitions
- 2. Geographical Coverage
- 3. Country Notes
- 4. Conversion Factors

Part I. Renewables in Global Energy Supply

- Development of Renewables and Waste in the World -- An IEA Fact Sheet
- Selected Renewables Indicators by Country for 2005
- Development of Renewables and Waste in OECD Countries
- Primary Energy Supply
- Electricity Production
- Installed Generating Capacity
- Contribution of Renewable Energy Sources to TPES by Country
- Share of Electricity Production from Renewable Sources by Country
- Share of Electricity Production from Renewable Sources excluding Hydro by Country
- Primary Energy Supply from Different Renewable Sources in 2005 by Country

Part II. OECD Renewables and Waste Data

- For Each Region/Country, the Follow Tables/Graphs are Provided:
- Table 1. Energy Supply, GDP and Population
- Table 2. Net Generating Capacity of Renewable and Waste Products in MW
- Table 3. Gross Electricity Generation from Renewable Sources in GWh
- Table 4. Heat Production from Renewable Sources in the

Transformation Sector in Terajoules  
--Table 5. Energy Balances of Renewable Products in Terajoules and Metric Kilotonnes --Graph 1. contribution of Renewables in 1990 --Graph 2. Contribution of Renewables in 2005 --Graph 3. Electricity Production by Renewables and Waste Energy Source in TWh -Countries/Regions --OECD Total --OECD North America --OECD/IEA Pacific --OECD Europe --IEA Total --IEA North America --IEA Europe --Australia --Austria --Belgium --Canada --Czech Republic --Denmark --Finland --France --Germany --Greece --Hungary --Iceland --Ireland --Italy --Japan --Korea --Luxembourg --Mexico --Netherlands --New Zealand --Norway --Poland --Portugal --Slovak Republic --Spain --Sweden --Switzerland --Turkey --United Kingdom --United States
