

## Resilience Matters: A Memoir

Dear Reader, Resilience Matters is a story - my story - that has been in my heart and on my mind for more than sixty years. I originally decided to write it for my children and grandchildren; however, many have told me it would be inspirational reading for others who have led a less than privileged life. In these pages you will join me on a journey through the foster care system, an abusive first marriage, and the ordeal of breast cancer, which included multiple reconstructive surgeries. At this point in my life, I am happy to report I have arrived at a place of perfect contentment. It is my hope that those who read this book will find the courage to put themselves first, while honoring their personal histories that live in their hearts and souls. I also hope that my readers will learn to always hold onto their dreams. Dreams can come true. Mine did! Joanne Bellontine
