Book Description Mental health experts agree that to lead a happy, healthy, and fulfilled life, we must be able to build and nurture friendships. Yet many of us don't know how. We struggle with making friends or alienate the ones we already have, leaving us feeling lonely and confused. Play It by Ear offers a fresh, jazz-inspired approach to help us connect with others in a positive, meaningful way. Drawing on experience from his two careers first as a professional musician and second as a therapist Ron Carducci introduces the improvisational jam session as a model for mastering the art of relating. By adopting the flexible, accepting behaviors of jazz players, we can foster the trust and spontaneity that lie at the heart of

enduring friendships. Readers will learn how to cast aside their expectations, bend with others to preserve and deepen their relationships, transform conversations into creative, rewarding jazz dialogues, and keep their cool in difficult situations. Filled with illustrative stories from Dr. Carducci's practice and from the many years he performed in jazz clubs and Las Vegas show bands, Play It by Ear invites us to loosen up and engage in the present moment and experience the joy that comes from sharing a genuine connection.
