

# Rifle Marksmanship M4 M16 Series: OFFICIAL Field Manual 3-22.9 M16/M4 Series Weapons

This manual provides guidance for planning and executing training on the 5.56-millimeter M16-series rifle (M16A1/A2/A3/A4) and M4 carbine. It is a guide for commanders, leaders, and instructors to develop training programs, plans, and lessons that meet the objectives or intent of the United States Army rifle marksmanship program and Field Manual 7-0. A Soldier's marksmanship proficiency depends on proper training and application of the basic marksmanship fundamentals. During initial marksmanship training, emphasis is placed on learning the firing fundamentals, which are taught in four phases: preliminary marksmanship instruction (PMI), downrange feedback, field firing, and advanced firing exercises. This prepares Soldiers for advanced optic and laser training for combat-type collective exercises and real-world deployments. This official Field Manual 3-22.9 contains direct corollary information on civilian application of the semi-automatic AR-15 5.56mm weapon platform. CHAPTER 1: Marksmanship Training CHAPTER 2: Weapon Characteristics & Ammunition CHAPTER 3: Trouble Shooting & Destruction CHAPTER 4: Preliminary Marksmanship Instruction CHAPTER 5: Downrange Feedback CHAPTER 6: Field Fire CHAPTER 7: Advanced Rifle Marksmanship CHAPTER 8: Advanced Optics, Lasers, and Iron Sights
