

# Routledge International Handbook of Consumer Psychology (Routledge International Handbooks)

This handbook provides an authoritative and comprehensive outline of the current state of research across a wide range of areas within the increasingly popular topic of Consumer Psychology. Its aim is to encourage and guide future research, and to emphasize up-to-date and novel, cutting-edge work in the field. The handbook will be unique in the international breadth of its contributors and the cross-cultural nature of much of its content. The contributions come from a mix of established and respected authors, and younger up-and-coming researchers. It will be an essential reference for researchers, practitioners and students around the world in areas of consumer psychology, consumer behaviour, marketing, economic psychology, behavioural economics and persuasion.
