

Childrens Encyclopedia Science

CHILDRENS ENCYCLOPEDIA SCIENCE is bursting with incredible facts about the scientific world, covering key areas such as science, space, weather, the human body and inventions. Key topics presented in short, numbered facts. Packed with fantastic photos and artwork. Special panels throughout for incredible facts, quizzes and projects. This beautifully illustrated science encyclopedia for kids is the perfect book to get your child fascinated about the world around them. Childrens Encyclopedia Science includes a wide variety of subjects, from atoms and planets to hurricanes and muscles. These enthralling topics will get your child thinking about the world that surrounds them. Easy-to-follow numbered facts will give children aged 7+ a great sense of achievement and incentivize them to make their way through the book. Colorful photos, artwork and diagrams aid the learning process, alongside quizzes, activities and cartoons to make learning fun and accessible. Essential topics covered in Childrens Encyclopedia Science: Science: Science on the move, Noisy science, and Scientists at work Space: Planet of life, A star is born, and Robot explorers Weather: Clouds and rain, Thunderbolts and lightning, and Weather watch Human Body: The growing body, Muscle power, and The healthy body Inventions: New ways of moving, Measuring time, and Taking to the skies Examples of I dont believe it fascinating facts: Light is the fastest thing in the Universe it travels through space at 300,000 kilometers per second. Thats seven times around the world in less than one second! For its size, Saturn is lighter than any other planet. If there were a large enough sea, it would float like a cork. Its easier to smile than frown. There are about 40 muscles under the skin of the face. You use almost all of these to make a deep frown, but only about half of them to show a broad grin.

Activities to make learning fun include:
Moon watch: what do you see when you look at the Moon through binoculars at night? How much has it rained? Create your own rain gauge using a jar, waterproof marker and ruler. Frothy fun: Using only vinegar and washing soda, create a safe chemical reaction at home!
